4. Analysis tools and advertising

Google Analytics

This website uses functions of the web analysis service Google Analytics. The provider is Google Ireland Limited („Google“), Gordon House, Barrow Street, Dublin 4, Ireland.

Google Analytics uses so-called „cookies“. These are text files that are stored on your computer and enable your use of the website to be analyzed. The data generated by the cookie

Information about your use of this website is generally transmitted to a Google server in the USA and stored there.

The storage of Google Analytics cookies and the use of this analysis tool are based on Art. 6 Abs. 1 lit. f DSGVO. The website operator has a legitimate interest in the analysis of user behavior in order to optimize both its website and its advertising.

IP-Anonymization

We have activated the IP anonymization function on this website. This means that your IP address will be truncated by Google within member states of the European Union or in other signatory states to the Agreement on the European Economic Area before being transmitted to the USA. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. Google will use this information on behalf of the operator of this website for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage to the website operator. The IP address transmitted by your browser as part of Google Analytics will not be merged with other Google data.

Browser Plugin

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. You can also prevent Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) and from processing this data by Google by downloading and installing the browser plug-in available at the following link: <https://tools.google.com/dlpage/gaoptout?hl=de>.

Objection against data collection

You can prevent the collection of your data by Google Analytics by clicking on the following link. An opt-out cookie will be set to prevent your data from being collected on future visits to this website: Deactivate Google Analytics. You can find more information on how Google Analytics handles user data in Google's privacy policy: <https://support.google.com/analytics/answer/6004245?hl=de>.

Order processing

We have concluded an order processing contract with Google and fully implement the strict requirements of the data protection authorities when using Google Analytics.

Google Remarketing

The data controller has integrated Google Remarketing services on this website. Google Remarketing is a function of Google Ads that enables a company to display advertisements to Internet users who have previously visited the company's website. The integration of Google Remarketing therefore allows a company to create user-related advertising and consequently to display advertisements relevant to the interests of the Internet user.

Operating company and purpose

The operating company of the Google Remarketing services is Google Ireland Limited; Gordon House, Barrow Street, Dublin, D04 E5W5, Dublin; Ireland.

The purpose of Google Remarketing is to display interest-based advertising. Google Remarketing enables us to display advertisements via the Google advertising network or to have them displayed on other websites that are tailored to the individual needs and interests of Internet users.

How Google Remarketing and cookies work

Google Remarketing places a cookie on the data subject's IT system. What cookies are has already been explained above. By setting the cookie, Google is able to recognize the visitor to our website when he or she subsequently visits websites that are also members of the Google advertising network. Each time a website on which the Google Remarketing service has been integrated is accessed, the data subject's internet browser automatically identifies itself to Google. As part of this technical process, Google receives knowledge of personal data, such as the IP address or the surfing behavior of the user, which Google uses, among other things, to display interest-relevant advertising.

Cookies are used to store personal information, such as the websites visited by the data subject. Each time our website is visited, personal data, including the IP address of the Internet connection used by the data subject, is therefore transmitted to Google in the United States of America. This personal data is stored by Google in the United States of America. Google may pass on this personal data collected via the technical process to third parties.

Data protection options for the individual

The data subject may, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such a setting of the Internet browser used would also prevent Google from placing a cookie on the data subject's IT system. In addition, a cookie already set by Google Analytics can be deleted at any time via the Internet browser or other software programs.

Furthermore, the data subject has the option of objecting to interest-based advertising by Google. To do this, the data subject must call up the link www.google.de/settings/ads from each of the Internet browsers they use and make the desired settings there.

Further information and privacy policy

Further information and the applicable data protection provisions of Google may be retrieved under <https://www.google.de/intl/de/policies/privacy/>.

Google Ads

The controller has integrated Google Ads on this website. Google Ads is an Internet advertising service that allows advertisers to place ads on the search engine results from Google as well as in the Google advertising network. Google Ads allows an advertiser to define certain keywords in advance, which are used to display an ad in Google's search engine results exclusively when the user uses the search engine to retrieve a keyword-relevant search result. In the Google advertising network, the ads are distributed to relevant websites using an automatic algorithm and taking into account the previously defined keywords.

Operating company and purpose

The operating company of the Google Ads services is Google Ireland Limited; Gordon House, Barrow Street, Dublin, D04 E5W5, Dublin, Ireland. The purpose of Google Ads is to promote our website by displaying interest-relevant advertising on the websites of third-party companies and in the search engine results of the Google search engine and by displaying third-party advertising on our website.

Use of conversion cookies and data collection

If a data subject reaches our website via a Google ad, a so-called conversion cookie is stored on the data subject's IT system by Google. What cookies are has already been explained above. A conversion cookie loses its validity after thirty days and is not used to identify the data subject. If the cookie has not yet expired, the conversion cookie is used to track whether certain sub-pages, such as the shopping cart from an online store system, have been accessed on our website. The conversion cookie enables both us and Google to track whether a data subject who has reached our website via an Ads ad has generated sales, i.e. completed or canceled a purchase.

Use and analysis of conversion cookie data

The data and information collected through the use of the conversion cookie is used by Google to compile visit statistics for our website. These visit statistics are in turn used by us to determine the total number of users who were referred to us via Ads ads, i.e. to determine the success or failure of the respective Ads ad and to optimize our Ads ads for the future. Neither our company nor other Google Ads advertisers receive information from Google that could be used to identify the data subject.

The conversion cookie is used to store personal information, such as the websites visited by the data subject. Each time our website is visited, personal data, including the IP address of the Internet connection used by the data subject, is transmitted to Google in the United States of America. This personal data is stored by Google in the United States of America. Google may pass on this personal data collected via the technical process to third parties.

Data protection options for the individual

The data subject may, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such a setting of the Internet browser used would also prevent Google from placing a conversion cookie on the data subject's IT system. In addition, a cookie already set by Google Ads can be deleted at any time via the internet browser or other software programs.

Furthermore, the data subject has the option of objecting to interest-based advertising by Google. To do this, the data subject must call up the link www.google.de/settings/ads from each of the Internet browsers they use and make the desired settings there.

Further information and privacy policy

Further information and the applicable data protection provisions of Google may be retrieved under <https://www.google.de/intl/de/policies/privacy/>.

5. Plugins and Tools

Google Web Fonts

This site uses so-called web fonts provided by Google for the uniform display of fonts. When you access a page, your browser loads the required web fonts into your browser cache in order to display texts and fonts correctly.

For this purpose, the browser you are using must connect to Google's servers. This informs Google that our website has been accessed via your IP address. The use of Google Web Fonts is in the interest of a uniform and online offer. This constitutes a legitimate interest within the meaning of Art. 6 Abs. 1 lit. f DSGVO.

If your browser does not support web fonts, a standard font will be used by your computer. Further information on Google Web Fonts can be found at <https://developers.google.com/fonts/faq> and in Google's privacy policy: <https://policies.google.com/privacy?hl=de>.

Google Maps

Google Maps services are used on our website (e.g. in-screen or via interfaces / API). Google LLC, USA, may therefore process information about your actual location. Google uses various technologies to determine your location, such as IP addresses, GPS and other sensors that provide Google with information about nearby devices, Wi-Fi access points or cell towers, for example.

The purpose and scope of the data collection and the further processing and use of the data by Google as well as your rights in this regard and setting options to protect your privacy can be found in Google's data protection information at <https://policies.google.com/privacy?hl=de&gl=de>.

6. Social-Media

Meta (Facebook & Instagram)

On this website, the controller has integrated components of the enterprise Facebook. Facebook is a social network.

Function

A social network is a social meeting place operated on the Internet, an online community that generally enables users to communicate with each other and interact in virtual space. A social network can serve as a platform for the exchange of opinions and experiences or enable the Internet community to provide personal or company-related information. Facebook allows social network users to create private profiles, upload photos and network via friend requests, among other things.

Operating company of Facebook

The operating company of Facebook is Facebook, Inc, 1 Hacker Way, Menlo Park, CA 94025, USA. If a data subject lives outside the USA or Canada, the controller for the processing of personal data is Facebook Ireland Ltd, 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland.

Automatic data transmission

With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a Facebook component (Facebook plug-in) was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to download a display of the corresponding Facebook component from Facebook through the Facebook component. A complete overview of all Facebook plug-ins can be accessed at https://developers.facebook.com/docs/plugins/?!locale=de_DE. During the course of this technical procedure, Facebook is made aware of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in to Facebook at the same time, Facebook recognizes which specific subpage of our website the data subject is visiting each time the data subject accesses our website and for the entire duration of the respective stay on our website. This information is collected by the Facebook component and assigned by Facebook to the respective Facebook account of the data subject. If the data subject clicks on one of the Facebook buttons integrated on our website, for example the „Like“ button, or if the data subject makes a comment, Facebook assigns this information to the personal Facebook user account of the data subject and stores this personal data.

Facebook always receives information via the Facebook component that the data subject has visited our website if the data subject is logged in to Facebook at the same time as accessing our website; this takes place regardless of whether the data subject clicks on the Facebook component or not. If the data subject does not want this information to be transmitted to Facebook, they can prevent the transmission by logging out of their Facebook account before accessing our website.

Privacy protection and Facebook's data policy

The data policy published by Facebook, which is available at <https://de-de.facebook.com/about/privacy/>, provides information about the collection, processing and use of personal data by Facebook. It also explains what settings options Facebook offers to protect the privacy of the data subject. In addition, various applications are available that make it possible to suppress the transmission of data to Facebook.

LinkedIn

The controller has integrated components of LinkedIn Corporation on this website. LinkedIn is an Internet-based social network that allows users to connect with existing business contacts and make new business contacts. Over 400 million registered people use LinkedIn in more than 200 countries. This makes LinkedIn currently the largest platform for business contacts and one of the most visited websites in the world.

Operating company of LinkedIn

The operating company of LinkedIn is LinkedIn Corporation, 2029 Stierlin Court Mountain View, CA 94043, USA. LinkedIn Ireland, Privacy Policy Issues, Wilton Plaza, Wilton Place, Dublin 2, Ireland, is responsible for data protection matters outside the USA.

Each time you visit our website, which is equipped with a LinkedIn component (LinkedIn plug-in), this component causes the browser used by the data subject to download a corresponding representation of the LinkedIn component. Further information about the LinkedIn plug-ins may be accessed under <https://developer.linkedin.com/plugins>. As part of this technical process, LinkedIn receives information about which specific subpage of our website is visited by the data subject.

If the data subject is logged in to LinkedIn at the same time, LinkedIn recognizes which specific subpage of our website the data subject is visiting each time the data subject accesses our website and for the entire duration of their stay on our website. This information is collected by the LinkedIn component and assigned by LinkedIn to the respective LinkedIn account of the data subject. If the data subject clicks on one of the LinkedIn buttons integrated on our website, LinkedIn assigns this information to the personal LinkedIn user account of the data subject and stores this personal data.

LinkedIn always receives information via the LinkedIn component that the data subject has visited our website if the data subject is logged in to LinkedIn at the same time as accessing our website; this takes place regardless of whether the data subject clicks on the LinkedIn component or not. If the data subject does not want this information to be transmitted to LinkedIn, they can prevent the transmission by logging out of their LinkedIn account before accessing our website.

Privacy options and settings on LinkedIn

LinkedIn offers the option to unsubscribe from email messages, SMS messages and targeted ads and to manage ad settings at <https://www.linkedin.com/psettings/guest-controls>. LinkedIn also uses partners such as Quantcast, Google Analytics, BlueKai, DoubleClick, Nielsen, Comscore, Eloqua and Lotame, which may set cookies. Such cookies can be rejected at <https://www.linkedin.com/legal/cookie-policy>. The applicable data protection provisions of LinkedIn may be retrieved under <https://www.linkedin.com/legal/privacy-policy> LinkedIn's cookie policy is available at <https://www.linkedin.com/legal/cookie-policy>.

YouTube

The data controller has integrated YouTube components on this website. YouTube is an Internet video portal that allows video publishers to post video clips free of charge and other users to view, rate and comment on them, also free of charge. YouTube allows the publication of all types of videos, which is why complete film and television programs as well as music videos, trailers or videos made by users themselves can be accessed via the Internet portal.

Operating company of YouTube

The operating company of YouTube is YouTube, LLC, 901 Cherry Ave, San Bruno, CA 94066, USA. YouTube, LLC is a subsidiary of Google Ireland Limited; Gordon House, Barrow Street, Dublin, D04 E5W5, Dublin; Ireland.

Each time one of the individual pages of this website is accessed, which is operated by the controller and on which a YouTube component (YouTube video) has been integrated, the Internet browser on the information technology system of the data subject is automatically prompted by the respective YouTube component to download a representation of the corresponding YouTube component from YouTube. Further information about YouTube can be found at <https://www.youtube.com/yt/about/de/>. During the course of this technical procedure, YouTube and Google gain knowledge of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in to YouTube at the same time, YouTube recognizes which specific subpage of our website the data subject is visiting when a subpage containing a YouTube video is accessed. This information is collected by YouTube and Google and assigned to the respective YouTube account of the data subject.

YouTube and Google always receive information via the YouTube component that the data subject has visited our website if the data subject is logged in to YouTube at the same time as accessing our website; this takes place regardless of whether the data subject clicks on a YouTube video or not. If the data subject does not want this information to be transmitted to YouTube and Google, they can prevent the transmission by logging out of their YouTube account before accessing our website.

Privacy policy of YouTube and Google

The data protection provisions published by YouTube, which can be accessed at <https://www.google.de/intl/de/policies/privacy/>, provide information about the collection, processing and use of personal data by YouTube and Google.
